

**Fleet Management, Made Easy**

# Why use FleetCheck?

Our award-winning Fleet Management Software allows you to store your vehicle and driver information in one secure system, saving you valuable time and giving you peace of mind that your fleet is fully compliant.

By integrating with over 250 data streams, the system enables your business to handle your fleet tasks efficiently, whilst embedding a robust audit trail to underpin your legal requirements.

You can keep up to date with your upcoming events thanks to the software's unique 'traffic light' alert system and have all your fleet reports at your fingertips. Plus, by being cloud-based, our software gives you total access from anywhere so you can be confident that it is secure and backed-up.

# Be more productive wherever you are

There's no getting away from it, your business needs a robust system to look after your fleet. FleetCheck means you can handle your fleet efficiently and with total confidence that nothing is hidden. Clarity where you need it the most.

## Vehicle Management

With FleetCheck, you can be safe in the knowledge that your vehicles are compliant:

- Never miss an MOT, service or tax again with a direct API link to the DVLA.
- Keep all your important vehicle documentation and costs in one secure area.

## Driver Management

Reduce the stress of chasing paperwork and save valuable time during your day:

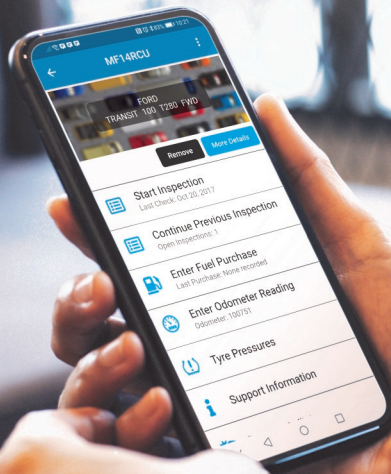

- Our easy to use, in-house licence checking solution provides complete peace of mind that your drivers are legal.
- Our FleetCheck Driver app enables your drivers to submit vehicle checks, access company documentation, capture collision details and so much more.

## Company Management

Quick and easy access to all your fleet data with an intuitive dashboard and a comprehensive reporting suite:

- Benefit from an entire fleet overview at the click of a button.
- Supports you with all key industry schemes including FORS and Earned Recognition.

# Transform the way you manage your fleet

We understand that no two businesses are the same. You might run a small fleet of cars and vans, you might be responsible for a large fleet of HGVs.

Whether you're a first timer to the role or an experienced transport manager, we make the job straightforward. No more sleepless nights worrying about compliance. No more time wasted chasing paperwork.

## No more time wasted with...

- Multiple Spreadsheets and hard to find information
- Chasing drivers for paperwork and concerns about missed safety inspections
- Fragmented data that is not giving you the information you need
- Managing rising fuel costs and lowering emissions
- Communicating policies to drivers and confirming they have read them

## Did you know?

FleetCheck are a validated IT supplier for Earned Recognition and the only fleet management platform that is approved by FORS to support operator accreditation.

## Access all your fleet data in a click

Our software integrates with a multitude of suppliers to automatically collect data from every corner of the fleet industry. You can easily and efficiently 'join the dots' between your providers, giving you complete control of your fleet.

For example, integrated mileage data from telematics coupled with fuel data from your fuel card supplier or bunkered system gives you truly meaningful MPG analysis, and can also highlight poor driver behaviour or even fuel theft.

By integrating your third-party systems you can save valuable time, maintain your compliance and easily control your costs.

Simple but effective.

## Unlimited users. Ready to run.

Setting up our software is easy. Simply send us your information and we'll do the rest. Need the team to have access but don't want them to see everything? No problem. We'll set you up with unlimited users and tailored views.

### Live Demo

## What our clients say

Great software and brilliant client service equals happy clients. Here's what they have to say about FleetCheck:

I would recommend FleetCheck 100%, without hesitation, for me it is invaluable. FORS or not, if you run a fleet of vehicles, you need this!

**Michael Lydon**

Transport Manager, Fraser tool hire | Fleet size: 23 vehicles, FORS Silver

We can't quite believe how we were managing to stay on top of things before FleetCheck came and revolutionised the way we do things.

**Chris Kirk**

Head of transport, Blind Veterans | Fleet size: 161 vehicles

FleetCheck is a 'Source of Truth' for the fleet, that's never been available before in our organisation. For example, our quarterly financial accruals are now reduced from 2 days to 2 hours work.

**Mick Coley**

National Fleet Services Regional Manager, St John Ambulance | Fleet size: 600 vehicles
